Introduction

About this book:
I have made this set of 5 Senses Flip Books and Flap Book to address the Kindergarten (Prep) and 1st Grade level of learning and reading.

Directions for use:
To assemble the flip books, cut out each rectangle, then along the lines of the bottom rectangle. Make sure that the top rectangle is left intact as it will form the base for the flip book! Arrange the “flips” (pages) one on top of the other and staple them to the base. Students will have lots of fun reading their flip books over and over again to friends and family! Once children have finished reading their flip book, they can complete the recording sheet included at the beginning of the unit.
The flap booklet and picture cards are found on the last 2 pages of the unit. To assemble the flap book, fold in half horizontally along the continuous line, then open the paper back out and cut up along the dashed lines making sure to stop at the continuous line (which should have a crease from folding). Students then cut out the picture cards on the following page and paste them under the correct flap, sorting them out by sense category.

Happy Teaching :)
